

Autodesk Access - Reinstallation

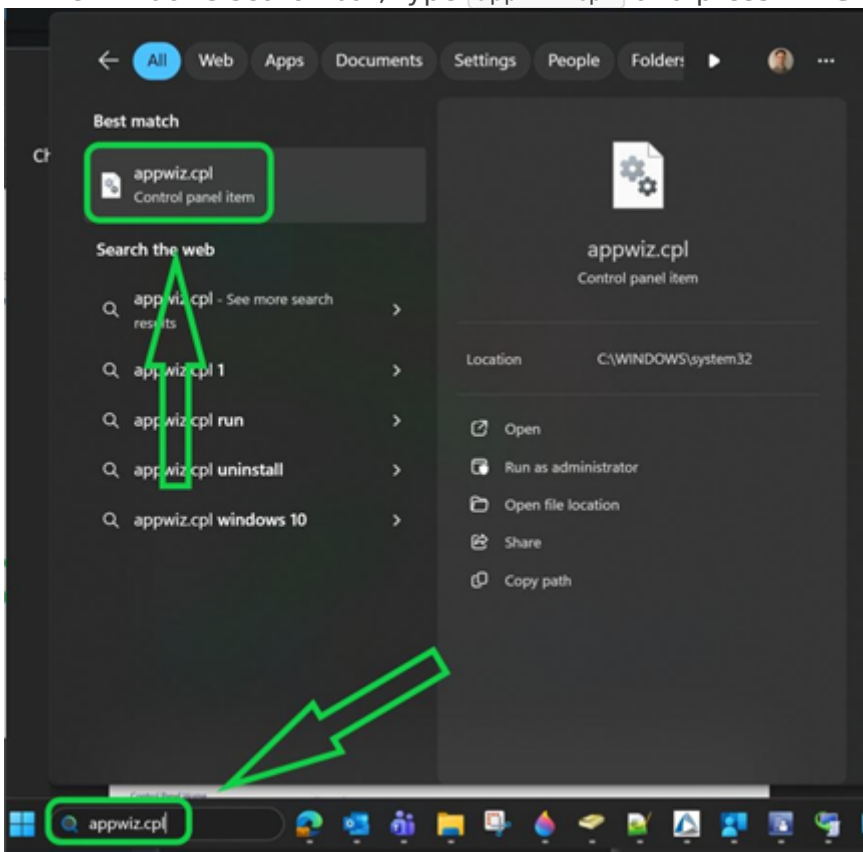

Object: Reinstall Autodesk Access

Description

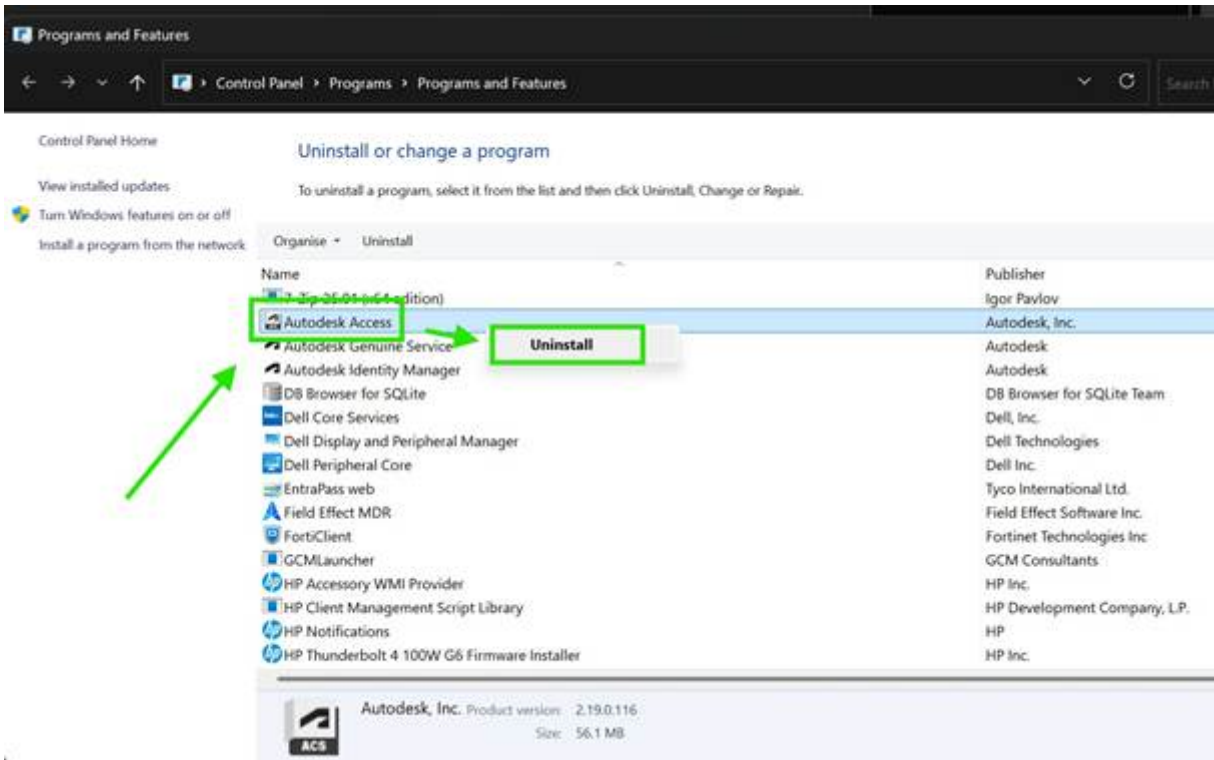

This procedure explains how to uninstall and then reinstall the Autodesk Access application.

Etapas

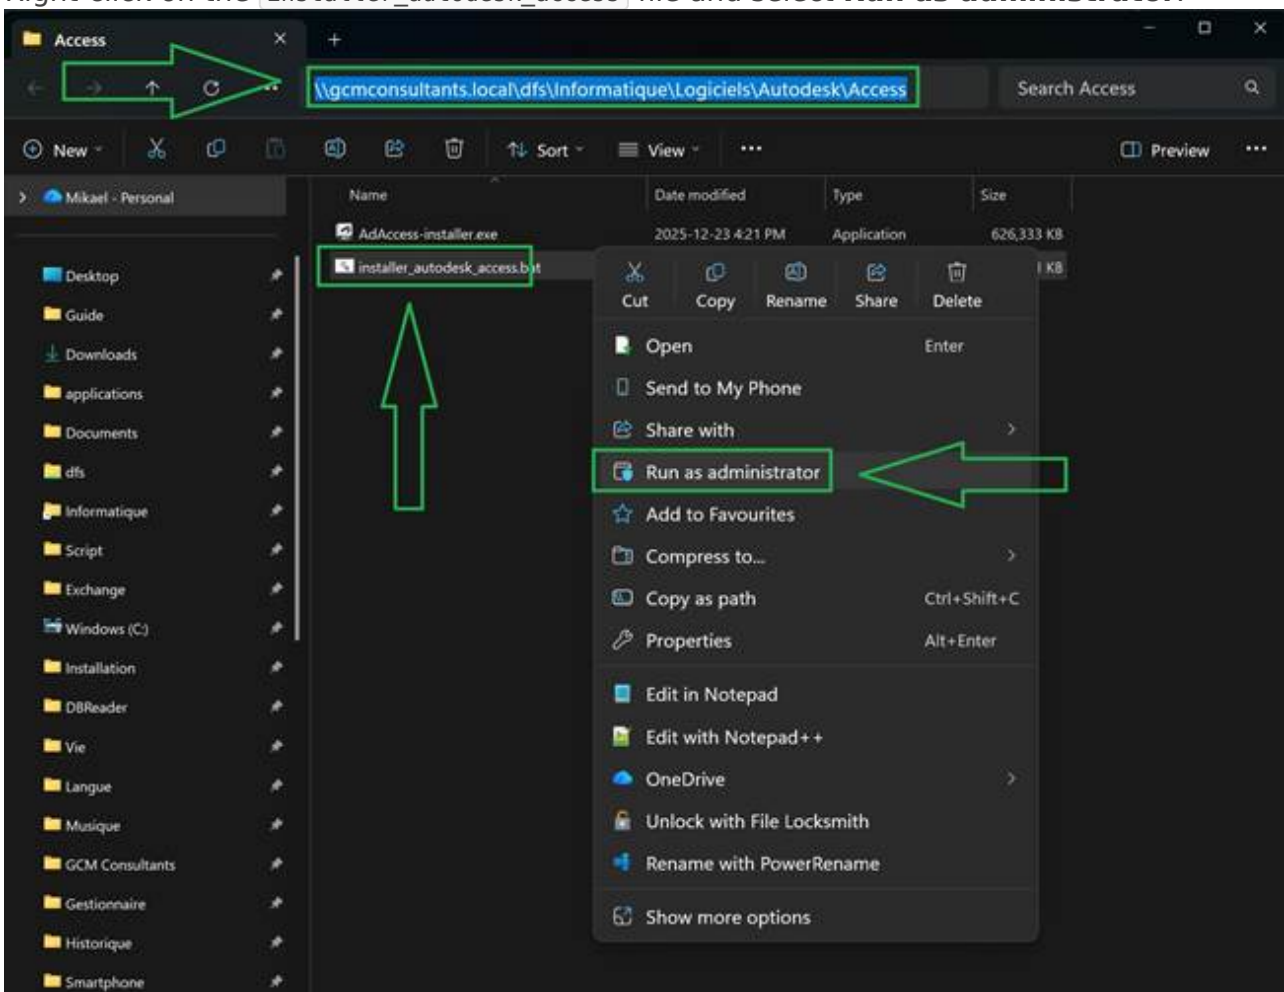

1. In the Windows search bar, type `appwiz.cpl` and press **Enter**.

2. Right-click on **Autodesk Access** in the list and select **Uninstall**. Then, restart your computer.

3. Copy the following path and paste it into the File Explorer address bar, then press **Enter**:
`\\gcmconsultants.local\dfs\Informatique\Logiciels\Autodesk\Access`
4. Right-click on the `installer_autodesk_access` file and select **Run as administrator**.
